

The Centro Cultural Competence Bibliographic Database

_ [1]

The Centro Cultural Competence Bibliographic Database (CCCBD) is a collection of published and soon-to-be published works related to cultural competency in the four academic fields that we are currently analyzing and studying:

- (1) [Public Health \[2\]](#)
- (2) [Social Work \[3\]](#)
- (3) [Urban Affairs and Planning \[4\]](#)
- (4) [Education \[5\]](#)

The CCCBD contains over 800 references to books, journal articles, book chapters, dissertations, and other academic papers regarding cultural competence. This electronic bibliographic database has basic citation information, abstracts, and indices by author and subject area. The vast majority of works archived are published; but, there is also a growing number of manuscript works listed here, many of which supplement research reported in publications. New entries will be continually added.
