Undergraduate Courses

Centro, in a joint effort with other departments at Hunter College, will incorporate student-focused pedagogies that are relevant to the typical student enrolled in Puerto Rican Studies and other area studies. We will target students from low-income families and those first in their families to attend a four-year college. Centro seeks to sponsor an academic program through memoranda of understanding and agreements with other academic units at Hunter College and to collaborate with these academic units to create and implement innovative, integrated, multi-disciplinary courses and other activities. Our program will be a complement to departmental programs, not a substitute to them.
