```
google.load("swfobject", "2.1"); /* * Change out the video that is playing */ // Update a particular HTML
element with a new value function updateHTML(elmId, value) {
document.getElementById(elmId).innerHTML = value; } // Loads the selected video into the player.
function loadVideo() { var selectBox = document.getElementById("videoSelection"); var videoID =
selectBox.options[selectBox.selectedIndex].value if(ytplayer) { ytplayer.loadVideoById(videoID); } } //
This function is called when an error is thrown by the player function onPlayerError(errorCode) {
alert("An error ocured of type:" + errorCode); } // This function is automatically called by the player
once it loads function onYouTubePlayerReady(playerId) { ytplayer =
document.getElementById("ytPlayer"); ytplayer.addEventListener("onError", "onPlayerError"); } // The
"main method" of this sample. Called when someone clicks "Run". function loadPlayer() { // The video to
load var videoID = "375vw6IS4-Y" // Lets Flash from another domain call JavaScript var params = {
allowScriptAccess: "always" }; // The element id of the Flash embed var atts = { id: "ytPlayer" }; // All of
the magic handled by SWFObject (http://code.google.com/p/swfobject/ [2])
swfobject.embedSWF("http://www.youtube.com/v/" + videoID +
"?version=3&enablejsapi=1&playerapiid=player1", "videoDiv", "547", "301", "9", null, null, params,
atts); } function _run() { loadPlayer(); } google.setOnLoadCallback(_run);
```
